RUCHIKA JAIN

AI PRODUCT ANALYST | PRODUCT MANAGEMENT | SAAS

Copenhagen, Denmark | +45 9164 3172 | ruchikajain6789@gmail.com |

PROFESSIONAL SUMMARY

With a background in banking and sales, I have always enjoyed understanding customer needs and finding practical solutions to business problems. My interest in technology led me towards product development, and I now work as an AI Product Analyst on SaaS products. I work on requirements, user stories, PRDs, AI feature evaluation, workflows, and product improvements.

CORE SKILLS

PRODUCT Product Planning •PRDs • User Stories • Feature Analysis	**BUSINESS** Customer Needs · Problem Solving · Teamwork · Requirements
AI AI Evaluation · AI Tools · Workflow Design · UX	**SALES & CUSTOMER** Account Management • Customer Relations • Sales Support • Customer Service

PROFESSIONAL EXPERIENCE

AI Product Analyst | **Infinite Insight**

May 2026 – Present

- Translate business needs into product requirements, user stories, and feature specifications.
- Work on SaaS features across inventory, communication, marketing, and other product areas.
- Evaluate AI-generated responses using real business scenarios and identify gaps in accuracy, usability, and output quality.
- Design product workflows, wireframes, landing pages, and interactive prototypes to help validate product ideas.
- Analyze features, research comparable products, and identify gaps and opportunities for improvement.

Administrative Professional | **SDK**

May 2023 – Sep 2023

- Managed client expenses and financial records using Gatship and supported business activities through HubSpot.
- Processed invoices, maintained supplier and master data, and kept client and company records accurate and up to date.
- Handled logistics and customs clearance activities, including preparing transfer and clearance documents for clients.

Account Development Executive | American Express
Feb 2020 – Apr 2022

- Managed customer relationships and understood client needs to identify business opportunities.
- Handled customer issues, business requirements, and follow-ups through clear and effective communication.
- Used customer and business information to support decisions and improve customer experience.

Relationship Manager | ICICI Bank
Mar 2015 – Nov 2016

- Handled banking operations, customer service, financial transactions, and compliance processes.
- Worked directly with customers, understood their requirements, and resolved service-related issues.
- Built strong skills in problem solving, communication, and stakeholder management.

SELECTED PRODUCT PROJECTS

Inventory Management & Expiry Tracking

- Reviewed comparable SaaS products to understand navigation, usability, and feature approaches.
- Translated business requirements into workflows, wireframes, prototypes, and user-friendly product experiences.

Business Analysis & Product Design

- Reviewed comparable SaaS communication features and worked with developers during implementation.
- Defined Email and SMS notification workflows, business rules, user stories, and customer-facing messages.

Communication & Notifications

- Compared AI assistant approaches and suggested improvements to prompts and response quality.
- Evaluated AI responses across business scenarios and identified gaps in accuracy, relevance, and usability.

AI Assistant Evaluation

- Created PRDs, user stories, workflows, and wireframes and reviewed comparable inventory solutions.
- Defined inventory workflows for Inventory Count, Stock Adjustment, and Expiry Tracking based on business requirements.
